

Miramontes Arts & Sciences Program

University of Colorado **Boulder**

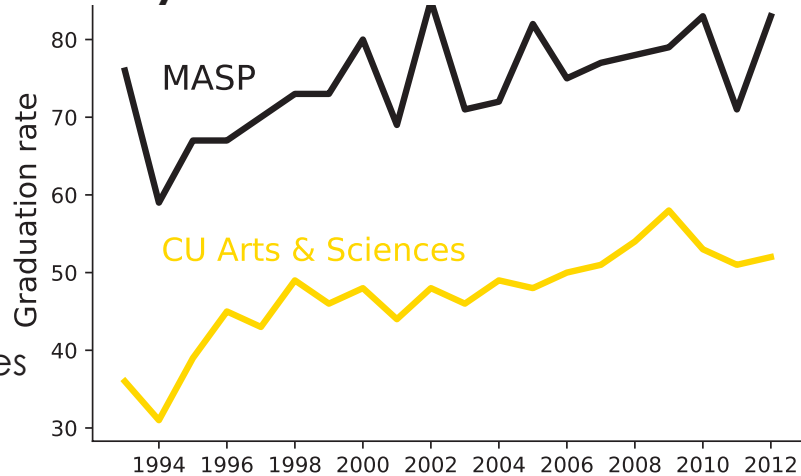

Together We Rise!

**MASPIans excelling
in the academic
community:**

100% of 2017 & 2018 graduates participated in High Impact Practices such as research, internships, and study abroad

96% of 2017 & 2018 graduates participated in community groups outside of MASP; **72%** of whom were in leadership roles

6-year Graduation Rates

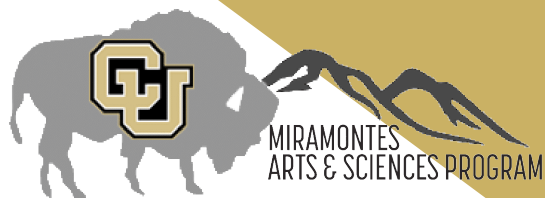

MASPIans graduate at higher rates than the general population of underrepresented minorities in the College of Arts & Sciences

Program for
Excellence in
Academics &
Community

Students say the most beneficial parts of our summer bridge program (PEAC) are:

- Study Skills
- Community
- Campus Resources
- Time Management

PEAC is intentionally rigorous, to give incoming freshmen a head start to college life. This program makes the transition between high school and college much smoother, improving college retention rates.

Faculty Mentorship

"If I couldn't have dropped in and talked to someone, I never would've stayed."

"It is very helpful to talk through my goals, problems, and what's going on in my life in general."

Participation Scholarships

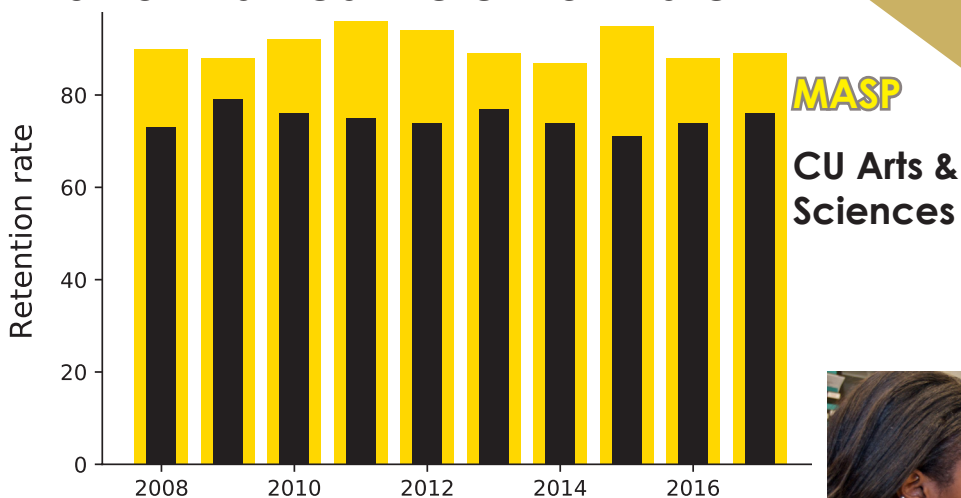

"The scholarship is definitely important in my academic success. It lessens my stress about finances and allows me to reallocate my thoughts to my studies!"

Study Room

"I feel uncomfortable in the library. In MASP I know everyone so I can just study."

"I always have a place to feel welcome."

1st to 2nd Year Retention Rate

MASPIans continue at CU at higher rates than the general population of underrepresented minorities in the College of Arts & Sciences via its offered programs
